Crafting Visions.

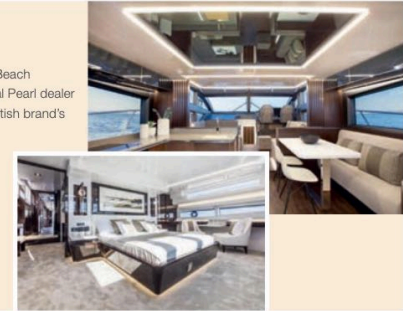

listgc.at

For generations, we have been realizing the most extraordinary living spaces with dedication and expertise. On water and on land. As a leading international partner in interior+ outfitting, we turn visions for living into reality – for both indoor and outdoor areas.

We are crafting visions.

Two new exciting models

Pearl Yachts presented the Pearl 62 and Pearl 95 at the Palm Beach International Boat Show with Atlantic Yacht and Ship Co, official Pearl dealer for the East coast. These two exciting models represent the British brand's growing range, with alluring design by the exclusive duo of Bill Dixon for the exteriors and Kelly Hoppen CBE for the interiors. Pearl Yachts Managing Director, Iain Smallridge says, "It's been a while since we've put the spotlight on the Pearl 62, our most successful model to date, and our flagship the Pearl 95. Palm Beach ranks high among our favourite events, and we love welcoming old friends and new ones, together with our partners at Atlantic Yacht & Ship Co." i.pearlyachts.com

A 48m concept with large spaces for long voyages

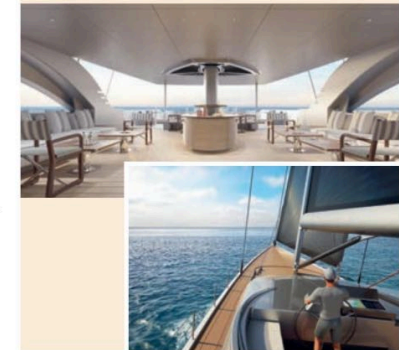

The owner's request to the architect Tommaso Spadolini was clear: a feasibility study for a yacht around 50m in length, therefore more spacious than the owner's current 35m yacht, which would allow them to better enjoy their large family during the summer holidays. The owner has also made some precise requests regarding the interior common areas, with a large galley aft of the owner's cabin, followed aft by an 11m salon, while another 7m salon is planned on the upper deck. The strictly displacement hull measures 48.5m in overall length, which becomes 46 at the waterline, with a maximum beam of 8.8m and a 2.5m draught. Steel will be used for the construction of the hull and aluminium for the superstructures, with a gt of approximately 490t.

New Briand 60m ketch puts comfort first

Celebrated French yacht designer Philippe Briand is exciting to unveil a new 60m ketch concept, dubbed KAZE. Comfort under sail and huge volumes below deck are the mainstays of the design, which aims to deliver a fabulous quality of life aboard. Renderings just released show the sleek, balanced lines and low-profile coach roof of a thoroughly modern-looking yacht. Mr Briand firmly believes that a designer has to be focused on the lifestyle component especially on a big 60m sailing boat by sharing the sail area between two masts. But also capable of passing beneath the Bridge of the Americas on the Panama Canal. With its volume of 499gt KAZE will provide amply for an incredible lifestyle.
